

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

دروس التجويد (1 - 2): مُرَاجَعَة وَتَمَارِين

Review and Exercises

So in the last two lessons, we covered ahkam 'al noon al sakina wal tanween', 'al noon al mushaddada', and 'al meem al mushaddada'. Practice is the only way to learn tajweed, as in any other science. So this will serve as a review for you. As an incentive, the first two people who send me* a **correct** answer for question 2 will be given one dish each of an Iraqi dessert called 'halawet smeed' on the next iftar meeting (Monday, November 10, 2003).

1. اقرأ سورة المؤمنون (Sura 23 – Verse 91) الآية 91.

How many of the following can you find?

- idhar
- idgham be ghonna
- idgham be ghair ghonna
- iqlab
- ikhfa'a

2. Find a verse (6 words +) in the Quran that **does not** have any of the ahkam that we covered so far.

3. اقرأ سورة الليل (Sura 92)

There are 5 occurrences of ikhfa'a, can you find them?

There is one occurrence of iqlab, can you find it?

There is one occurrence of idgham, of which type is it?

There is one occurrence of idhar, can you find it?

* Reply to the MSA e-mail. The incentive does not apply to MSA's personnel responsible for e-mail correspondence
